Coca-cola made in Atlanta, made famous in Ocala at Gerig's.

Two North Ocala homes were made happy yesterday by a visit of the stork. A boy was born at the home of Mr. and Mrs. W. J. McGehee, and a girl to Mr. and Mrs. T. H. Roland.

We have a new perfume, Bouquet Dozira, a fine lasting extract. \$2 per ounce. Gerig's. tf

Mr. B. H. Seymour and a friend, by calling at the store of A. Arabian, may refresh themselves with our celebrated drink, bottled coca-cola at the expense of the Ocala Coca-Cola Bottling Works.

That good old veteran, L. M. Raynor of Lowell, with his son, L. M. Jr., were in town today on their way to the reunion in Tampa. Mr. Raynor Sr. slapped the Star reporter on the back so hard he almost broke him in two. That old man could fight several good battles yet.

Some cities have ordinances to prevent mules braying or roosters crowing, and now our clever young friend, J. D. McDonald, wants steps taken to stop jaybirds from chattering and causing him to lose his beauty sleep of mornings. Mac says the story about jaybirds going to hell on Fridays is a myth, unless they go after breakfast.

PLEASANT EVENING FOR THE K. OF P.

Some weeks ago the evening of Oct. 16th was set by the local lodge of Knights of Pythias as the date for having an oyster supper after the meeting, and as the attendance was considerably swelled the cause may be to an extent traceable to said oyster supper.

After the regular business of the lodge was dispensed with the field was cleared for action and Mr. C. W. Farrell, a member-elect of the Martel lodge, was shown the way through the second rank by request of his home lodge. After strenuous efforts on the part of the candidate and working team Mr. Farrell finally reached the shore in safety.

A number of splendid addresses were made during the evening and while more or less levity was intermixed the lessons to be derived from them were good.

At 9:30 the "oyster committee" announced that the spread awaited those who cared to partake, and nearly everyone present fell into line and marched to the Ocala House Cafe, where Host Bennett had prepared the juicy bivalves in every known style. Many of the members who in the lodge room play the roll of wall flowers certainly do shine at the festive board and these were no exception at last evening's feast.

Besides the candidate for initiation from Martel lodge were present Messrs. C. N. Hampton and J. A. Hicks, and several from other nearby lodges.

Mr. C. C. Stevens, our staunch farmer friend from Fellowship, was in town yesterday, and asked the Star to invite all the town folks who wanted to do a half a day's work with the hoe or rake, and then enjoy a good country dinner, to attend the working at Fellowship tomorrow, on which occasion the good people of that neighborhood will clean up the cemetery and when work is done refresh themselves from well-filled baskets. The people of Fellowship take great pride in their cemetery, and helping them out with it will be an honorable work.

FORGET YOUR ACES
Stiff knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than musky ointments or poultices. For strains or sprains, sore muscles or wrenched ligaments resulting from strenuous exercise, Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your druggist. 25c.

STOP THE FIRST COLD
A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your druggist. 50 cents.

HOW CATARRH IS CONTRACTED
Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

"AGIN THE AMENDMENT"

Editor Star: The makers of the U. S. constitution did well when they declared the small states should have the same number of U. S. senators as the largest states.

The makers of the U. S. constitution did well when they proportioned the House of Representatives according to population, giving the larger and smaller states the same representatives according to population.

The makers of the U. S. constitution did well when they caused an automatic re-apportionment each ten years according to population. The apportionment adopted by the makers of the U. S. constitution has been in active force for the last 128 years, without a single change or a single miss.

Let us compare the apportionment of this state with the national constitution and see which is best, and then act accordingly.

The constitution of this state says there shall be but 32 senators, 68 representatives (barring the one representative from each new county) and each ten years the legislature shall re-apportion the membership of the legislature.

Our state constitution is 30 years old.

The legislature in 1897 and in 1907 failed to re-apportion the state legislature. There was an effort made in 1907, an effort made in 1909, two efforts in 1913 and 1915 by a three-fifths vote of both houses. A new constitutional amendment was passed (and to be voted on by the people this fall) something on the order of the national proportionment.

There are now 32 senators, 74 legislators—106 members. Yet our constitution limits the number to 100.

The constitution of the state should be above the action of the legislature. The legislature of the state has failed to obey the state constitution in the past.

If our constitution is right, then some of the past legislatures were illegal.

How can an illegal legislature pass legal laws?

If the proposed amendment is defeated at the polls this fall then it is up to the next legislature to make a new re-apportionment.

Judging from the past the legislature will refuse to do so. Because it would say to Lake, Nassau, St. Johns, Putnam, Hamilton and Bradford or other counties but half of a Senator, and but one representative, and Hillsboro and Pinellas but one senator between them, etc.

Will these counties submit to such treatment?

A few days ago the Tampa Times showed the inequality of giving a small county the same strength in the state senate as the large county.

The Tampa Times failed to show the inequality as it exists today.

Look at the inequality of the United States Senatorial apportionment. New York has more than 9,000,000, Florida has 900,000. New York ten times that of Florida. Nevada has 81,000 people. Hillsboro county has 83,000—more than the state of Nevada. New York has more than 100 times as large a population. The twenty states in the Union having the lowest population have about the same population as New York state. They have 40 votes in the United States Senate to New York's two.

You say this is wrong.

If this wrong why has it continued for 128 years?

What injustice has it done? Why no complaint?

Why is there a change in the re-apportionment of congress each 10 years without fail?

There is an eternal and righteous fitness in this fact that says to our legislative department of this great country that the small and weak state shall have the same voting strength in the United States Senate as the large and strong states have.

Hillsboro has now one half a senator, two representatives. The amendment proposes for Hillsboro to have one Senator and three representatives. Pineallas, has one half a senator and one representative. They shall have one senator and two representatives. Manatee has one-half a senator and one representative. She shall have one senator and two representatives. Polk

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Remedies for Women," in plain wrapper. N. C. 134

has one senator and two representatives. She shall have one senator and three representatives. Dade has one-fourth senator, one representative. She shall have one senator and two representatives. Marion has half a senator and two representatives. She shall have one senator and three representatives. The smallest county shall have one senator and one representative.

Is the proposed amendment better than the old regime?

The proposed amendment is better than the old. It will forever settle the question of the legality of the Florida legislature.

Let us vote for the amendment!

Yours truly, L. S. Light.

Disgusted the Minister.

"The new minister called upon the factory superintendent today." "How'd he come out?" "Delling. The superintendent thought he was a man looking for a job and told him that he would give him a job in spite of his looks, if he could furnish first-class references and give a bond."—Houston Post.

Dante's Claim Rejected.

"What was that tenderfoot tryin' to sell you?" asked Broncho Bob, "Dante's Inferno," replied Three Finger Sam. "I told him I didn't see how Dante had any business stakin' a claim on what Crimmon Gulch was liable to produce gratis and abundant any minute."—Washington Star.

Maxwell

Cars Represent Greater Value Than Fords Per Dollar Invested

Figures Compiled from the Wall Street Journal

President Flanders of the Maxwell Co. thoroughly understands the policy of popular leadership in the automobile field through continuous price reductions. He says—"Every man I ever met either owned an automobile or intended to own one. Every price reduction we make enlarges the field. Our popular car was \$695 about a year ago when we cut it \$40. This year we cut it \$60, making the price \$595, and every cut we are able to make will increase the output."

The broadening character of the automobile industry is shown by the fact that while Ford and Maxwell are reducing prices, several higher-priced cars are advancing their prices and cars of limited output and of super-excellence in individualized construction and finish are contemplating radical advances.

The highest-priced car in the future will be more than ten times and possibly more than twelve times the price of either the Ford or Maxwell.

We class these two cars together because they are substantially at the same price when the accessories, such as electric starter, demountable rims, speedometer, etc., are added to the price of a Ford or deducted from the price of a Maxwell, yet the Maxwell is a larger type of car, more artistic in appearance and claims other points of superiority.

Maxwell Price vs. Ford Price

Ford gets a tremendous amount of advertising because Westing house and other concerns are advertising accessories for the Ford car.

Here is a list of items which a large number of Ford buyers add to their car, but which come complete with the Maxwell. The goods here listed are regularly advertised as needful additions to a Ford:

Parts Required	Prices Quoted By	Price
High tension magneto	Bosch Magneto Co.	\$58.00
Electric starter	Simms Magneto Co.	75.00
Storage battery	Prest-o-lite Co.	28.00
Demountable rims	Kelsey Wheel Co.	22.00
Demountable rim carrier	Auto Equipment Co.	3.50
One man mohair top, \$27.50; less \$10 for old top	Barton Auto Top Co.	17.50
Linoleum running boards	Auto Equipment Co.	6.00
Rain-vision ventilating windshield	Vanguard Mfg. Co.	10.00
Speedometer	Stewart-Warner Co.	10.00
3 1/2-inch tires for front	U. S. Tire Co.	7.20
Dash light and gasoline gauge	Auto Equipment Co.	2.50

List price of Ford car (F. O. B. Detroit) \$239.70

Ford Car Complete (F. O. B. Detroit) \$360.00

Maxwell Touring Car (F. O. B. Detroit) \$599.70

Difference in favor of Maxwell \$470

And Then Your Ford is Narrow Tread Your Maxwell is Wide, or 60-in., Tread

Sensible people will be surprised, we think, to consider these figures and see that the Maxwell costs less than a Ford without considering the extra room, beauty and full spring equipment as compared to the two cross springs on a Ford.

The questions asked in the automobile and financial world a few years ago as to the future of the Maxwell have been answered with emphasis and are being answered, daily and monthly, with record output and increasing net returns by the organization which President Flanders has built up. Maxwell has come back and, in its class, is in the race for leadership this year.
